Provider Incentive Plan (PIP)

For 2024 Measurement Year we are making significant changes to our PIP:

Maximize
the impact
of our PIP
budget

AWV/CWV

Driving improvement in Annual Wellness and Comprehensive Visit rates

**Disease
Management**

Driving a holistic approach to patient care by targeting members with Diabetes and Cardiovascular Disease

**Transitions
of Care**

Greater focus on Transitions of Care ensuring patients get care when they need it the most

What is different?

Incentivizing for 4-star performance or higher with a focus on PMG accountability through CAPs

Focus on whole person care by increasing Wellness Visits rates and participation in Disease Management Programs

Prioritizing patients with Social Risk Factors as part of the new Health Equity Index
